

The University of Hertfordshire Bio-Pesticides DataBase - Terms and Conditions of Use

This document seeks to describe the terms and conditions of use of the Bio-Pesticide DataBase (BPDB) website and database. Answers to other common questions are available in the document 'BPDB Questions and Answers' on the BPDB website. Information on the management and data acquisition of the database can be found in a document 'BPDB Background and Support' that is also available on the BPDB website. A simple guide to using the database 'BPDB Instructions for use' is also available.

Using the information in the database

- The information contained in the BPDB web pages can be used free of charge for **academic and non-commercial use** provided **proper reference to the database is given**. This reference should also be included when linking to the MS Access database from other websites. The general reference that should be used to refer to the database is as follows:

Lewis, K.A., Tzilivakis, J., Warner, D. and Green, A. (2016). An international database for pesticide risk assessments and management. *Human and Ecological Risk Assessment: An International Journal*, **22**(4): 1050-1064. DOI: 10.1080/10807039.2015.1133242

If you are using and so referencing pesticide dissipation on or in plant matrices then the following reference may be appropriate:

Lewis, K. & Tzilivakis, J. (2017). Development of a data set of pesticide dissipation rates in/on various plant matrices for the Pesticide Properties DataBase (PPDB). *Data*, **2**(3), 28. DOI: 10.3390/data2030028

When referring to wild bee toxicity data, the below may be more appropriate:

Lewis, K.A. & Tzilivakis, J. (2019). Wild bee toxicity data for pesticide risk assessments. *Data*, **4**(3): 98. DOI: 10.3390/data4030098

- Data may not be copied, reproduced, republished, posted, broadcast or transmitted in any way without first obtaining the University of Hertfordshire's written permission and only after a licence is in place.
- If the licence is not renewed after its term has expired the database may not be used for any purpose.
- Users are not entitled to distribute, modify, supplement or split the contents or structure of the BPDB. Furthermore, neither the Licensee nor the Users are entitled to rearrange the BPDB or to set up derived databases without first obtaining the University of Hertfordshire's written permission and only after a licence is in place.
- Users are entitled to extract and re-use, for non-commercial, academic or research purposes, unsubstantial parts of the contents of the BPDB. The systematic extraction and/or re-utilisation of substantial parts of the BPDB, conflicts with normal exploitation of the database and causes prejudice to

the legitimate interests of the University of Hertfordshire and is not authorised without a licence agreement.

- The University of Hertfordshire endeavours to offer an overall good-quality product and a reliable service. We aim to update our database and website regularly, and may change the content at anytime. If the need arises, we may suspend access to our database and website, or close it indefinitely. Any of the material on our database and website may be out of date at any given time, and we are under no obligation to update such material. The University of Hertfordshire does not guarantee that the BPDB contains full datasets. The PBDB is provided "as it stands" at the moment in time it is created and delivered to the end user.
- The decision to include or modify data in the BPDB is the responsibility of the University of Hertfordshire.
- The University of Hertfordshire shall not be liable for any direct or indirect damages arising out of the use of, or the inability to use, the BPDB.
- The University of Hertfordshire does not guarantee that the BPDB Database will be usefully accessible in every hardware/software environment.
- We may revise these terms of use at any time by amending this page. You are expected to check this document from time to time to take notice of any changes we made, as they are binding on you. Some of the provisions contained in these terms of use may also be superseded by provisions or notices published elsewhere on our site.

Linking directly to the BPDB web pages

If you would like to link to the BPDB, you may only do so on the basis that you comply with the following conditions otherwise we will consider it a breach of IPR/Copyright:

- a. You do not replicate either the BPDB Home page or A-Z page or any other of this website without our express written permission.
- b. You do not remove, distort or otherwise alter the size or appearance of the logos.
- c. You do not rename or replace the headings or other content such that you imply wrongful ownership.
- d. You email us and inform us that you have made the link - (a.green@herts.ac.uk).
- e. You do not create a frame or any other browser or border environment around this Website or any page within.
- f. You do not in any way imply that we are endorsing any products or services other than our own.
- g. You do not misrepresent your relationship with us nor present any other false information about us.
- h. You do not otherwise use any BPDB content displayed on this Website without our express written permission.
- i. Your website does not contain content that is distasteful, offensive or controversial, infringes any intellectual property rights or other rights of any other person or otherwise does not comply with all applicable laws and regulations.

- j. BPDB owners cannot be held responsible for any loss or action resulting from the use of the data held in the BPDB.

We expressly reserve the right to revoke the right granted by this statement and take any action we deem appropriate.

Third party links from the BPDB

Links to third party websites from this Website are provided solely for your convenience. If you use these links, you leave the BPDB. We have not reviewed these third party websites, we do not control them, nor are we responsible for their content or availability. We do not endorse or make any representations about them or their content.

Obtaining a copy of the MS Access database?

The database can also be obtained as an MS Access file on request. This is useful for persons working off-line or for direct linking to third-party software. Please contact us if you wish to integrate the BPDB into your computerised tools as this will be subject to a modest licence fee to cover the production and updating costs. The actual cost will depend upon the intended use of the data and the amount of data required. When contacting us please provide the following information:

- Intended purpose of the data (e.g. in-house proposes, research project, commercial application, etc.).
- What data is required (all or specific sub-set?).
- Whether or not regular updates are required.
- Your contact details.

You will be required to sign a licence agreement and, in some cases, the licence may be time limited. The licence will prohibit the transfer of the data to third parties and use of the database must be acknowledged (see above).

We also offer an updating service. We can provide updates on demand at a one-off cost or we can set up updating agreements whereby a new version of the database is provided at regular intervals over a one or two year period at a fixed and pre-agreed price.
